serviceMaster

CONNECTED LAUNDRY

POWERED BY SCHULTHESS

EXCLUSIVE TO WOLF

Experience the game changing power of Schulthess serviceMaster, where laundry management reaches new heights.

THE SMART PLATFORM
FOR SMART SERVICE

Say goodbye to guesswork and hello to a world of effortless control and optimisation, with serviceMaster. The UK's first and only smart end-to-end laundry solution allows you to control all aspects of your laundry remotley. View live error codes, monitor machines, see highest usage periods, oversee energy and water consumption and much more.

ERROR LOG

With automatic service triggers, serviceMaster notifies us of any machine issues allowing us to diagnose the fault remotely and send an engineer to you with the correct part for a 1st time fix.

UTILISATION

Monitor frequently used machines, their usage durations, and peak activity periods. This insight helps you anticipate machine issues due to high usage and assess laundry capacity accurately.

CONSUMPTION

Filter and compare machine water and electrical consumption and generate reports over any time frame. See clearly where you can save on costs throughout your operations.

HYGIENE

Our Hygiene dashboard gives you a remote audit trail for thermal disinfection. See live information on completed cycles and which cycles successfully reached temperature.

Don't wait, enquire today.

Partner with Wolf Laundry and unleash the full potential of your business with serviceMaster by Schulthess. Experience the ultimate tool for efficiency, reliability, and unmatched results.
