

## ENCAPSULATED FABRIC SOFTNER

### OVERVIEW:

An encapsulated fabric conditioner with quick-dry technology that softens, reduces static, and imparts long-lasting freshness.

### COMPOSITION

Contains <5% cationic surfactants, aliphatic hydrocarbons, and perfume.

### CHEMICAL PROPERTIES

Density (20°C): 1.00 g/ml  
pH-value (1%): ca. 7.0  
Flow rate (20°C): ca. 5.5 ml/s  
Viscosity (20°C): ca. 400 mPa

### DESCRIPTION:

- For softening of towels, bed linen and personal clothing.
- Suitable for use on cotton and polyester-cotton.
- For use in soft to medium-hard water.
- Suitable for automatic or hand dosing.

### PROPERTIES

- Optimal softening effect in short cycle times.
- Improves ease of ironing.
- Diminishes build-up of static electricity.
- No staining on coloured fabrics.
- No deposits on ironers.
- Long lasting perfume.
- Perfume released on wear

### INSTRUCTIONS FOR USE:

Use in the last rinse cycle for 2 – 5 minutes.

### Recommended Dosage:

4 – 8 ml/kg dry fabrics

### LEGISLATION

Any surfactants contained in this product comply with the European Union Directive EU648/2004 on biodegradability of surfactants. Contains no alkyl phenol ethoxylates, EDTA, NTA and phosphates.

### STORAGE & TRANSPORT:

Use above 5°C. Store above 5°C, out of direct sunlight. Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.
