

STAIN PRO

OVERVIEW:

A premium biodegradable emulsifier with specialized agents that breaks down and disperses heavy oils and grease from garments.

COMPOSITION

Contains >30% oxygen-based bleach, 15 – 30% phosphates and <5% non-ionic surfactants.

CHEMICAL PROPERTIES

pH-value (1%): ca. 10.0
Total alkalinity (1%): ca. 315 gpg

DESCRIPTION:

- Low temperature bleaching and destaining of white and coloured textiles.
- For use in the main wash.
- Not suitable for dark colours.
- Not suitable for delicate fabrics.
- Can be used in soft to medium-hard water.
- Manual dosing.

PROPERTIES

- For washing white textiles from 40oC.
- Effective removal of bleachable stains at medium-high temperatures (e.g., tomato, tea, coffee stains).
- No added optical brightener.

INSTRUCTIONS FOR USE:

Do not use in combination with chlorine or sodium dithionite containing products. Use as an additive together with a detergent.

Recommended Dosage:

6 – 10 g/kg dry fabrics

LEGISLATION

Any surfactants contained in this product comply with the European Union Directive EU648/2004 on biodegradability of surfactants. Contains no alkyl phenol ethoxylates, EDTA or NTA.

STORAGE & TRANSPORT:

Store in a cool dry place. Meets European directives on the classification, packaging and labelling of dangerous chemical substances and preparations.
